

الصف	المادة	الدروس المطلوبة لامتحان الدخول 2024 /2025 داخل لبنان
	اللغة العربية	<p>في التحليل: أسئلة في فهم النص – العنوان والسبب – المعنى المجازي والحقيقي – التشبيه – الحقل المعجمي- الداعم – الدلالة - إبداء رأي – مرادف وأضداد - توثيق النص (العنوان – المصدر – الكاتب).</p> <p>في التعبير: سرد حدث / قصة / وصف (مكان - إنسان – طبيعة).</p>
G5 To G6	English	<p>Reading Comprehension: The students are required to read the passage and answer the questions. Some questions may include the following reading strategy skills:</p> <p>1- Author's Purpose-</p> <ul style="list-style-type: none"> - to persuade because the author wants the reader to change his mind or try to do something. - to inform because the author is giving us information and teaching us facts. - to entertain because the author wants the reader to enjoy reading the story. <p>2- Main Idea and Supporting Details – An entire reading will have one main idea. It is the most important point of the text. Supporting details explain the main idea of a reading or a paragraph.</p> <p>3- Cause and Effect- When you read, think about cause and effect. The reason why something happens is the cause. What happens as the result of the cause is the effect..</p> <p><u>Writing Skill</u></p> <p style="text-align: center;"><u>Descriptive Essay</u></p> <p>The students are required to include the following points in the essay:</p> <ul style="list-style-type: none"> • Write a sentence in your first paragraph to clearly state your topic. • In the introduction, use adjectives to describe people, animals, or things. • Include two body paragraphs, use details that appeal to the five senses (sight, sound, smell, taste, and touch). This helps create a vivid picture in the reader's mind. • Finish your essay with something that reminds the reader of how you started it.
	Math	<p>Write in standard form, in words form, expanded form, order, compare, round, add and subtract whole numbers through billions, decimal numbers and fractions.</p> <ul style="list-style-type: none"> - Use rules to identify if a number is divisible by 2-3-4 -5- 9-10. -Convert from a mixed number into an improper fraction and from an improper fraction to a mixed number. -Multiply and divide a decimal number mentally by 10, 100, 1,000. -Multiply and divide by 2-digit in vertical form. -Solve multi-step word problems involving four operations (quotient+1), fractions and decimal numbers. -Solve problems involving measurement and conversion of measurements using decimals. -Draw perpendicular and parallel lines. -Find the distance from a point to a line. -Mark a point on a certain distance from a line. -Draw circles. -Draw and measure angles. -Use formulas to find the perimeter of square, rectangle and circle..
